

**WITH VIESA AGRO INSIDE,  
HEAT AND DUST STAY OUTSIDE.**

**E C O L O G I C A L C O O L E R**

At seeding or harvest, work conditions are crucial for an efficient and precise operation.

The new VIESA Agro is specifically designed and tested to endure the extreme working conditions of your agricultural equipment, regardless of season and soil condition.

The Agro incorporates an exclusive cool water vaporizer and a high-efficiency filter for dirt and grain dust. VIESA lets you keep working all day long in a cool, comfortable and controlled environment at a low operating cost.

Install VIESA Agro and boost your productivity.

- Easy access to components.

### Best Value.

Maximum results with minimum investment. Consumes only water and it makes no use of chemical coolants or emit gases into the atmosphere. Operates from 12 or 24 volt battery with low amperage draw. No fuel required.

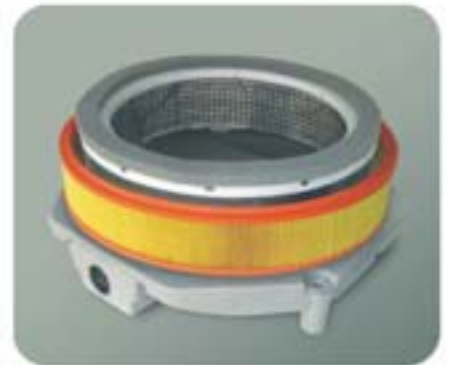

### Most Effective.

Powerful cooling is generated by vaporized cool water system. Exclusive dual air filter prevents dirt and dust from entering the cab. Tested and proven in the most diverse climates and agricultural applications.

### Best Quality.

Two-year manufacturer's warranty. Few components and virtually maintenance free. UV resistant materials.

**VIESA: The top selling brand in Europe. Manufactured under ISO 9001-2000.**

- Exclusive dual air filter prevents dirt and dust from entering the cab.
